Acknowledgements

I must thank various friends who read my letters and encouraged their publication; Margaret Higgins who turned the first edited chaos into a workable manuscript; Adrian Snowball who found 'information required'; Caroline Petherick for skilled copy editing; and Keith Whittles and team who took on the complex work and published it.

Special thanks too, for permissions to use material from their revelatory books: *Histories of the Damned*, professor David Anderson (Kenya) and *White Knees, Brown Knees*, Douglas J. Findlay (Canal Zone). Any unattributed quotes or poems are the author's.
